

Sustainable pasta bingo!

As a new restaurant owner you decided to review some recipes...and oh gosh what you have found! Previous chef signature dish was pasta with...ketchup?! Prove you can make better! And win the heart of your customers.

YOUR PLATE:

Select from the ingredients options for every category.

Bingo!

Time to prove your recipes can win!

Every time the teacher read a claim, which is fits your recipe (based on the calculation table), you can highlight the cell of your choice - but only in a given category (row).

First one getting one of the winning combinations is the chef of the year! (Or of a one round of game, for this purpose...)

Example:

Teacher reads: Nutrient content - Have at least 5g of protein.

Check your table - your recipe has actually 7g!

You can highlight one of the cell in the first row.

First round!

Bingo sheet 1				
Nutrient content				
Environmental impact				
Taste				
Health impact				

Second round!

Bingo sheet 2				
Nutrient content				
Environmental impact				
Taste				
Health impact
